

# PERFORMANCE DELIVERED

powered by Pro Mach 

Dekka is the leader in packaging machinery tape heads with technological advances like the patented no break tape advance system and an open design for easy threading. As one of the only companies dedicated to packaging machinery tape heads, we keep a high standard of quality with flexible solutions for a variety of tab sizes, lengths and speeds.

The BEL line of machinery has been an established leader in the hand pack End-of-Line market for many years. Our machines feature high quality construction materials, compact design, and are adaptable to all types of manual packaging applications.

## DEKKA

## IPAK MACHINERY

Wexxar/BEL is the leader in manufacturing and providing case erecting and case sealing machinery solutions. Wexxar machines feature exclusive technologies such as the reliable “Pin & Dome” case opening system and the ultra-safe “Snap Folder” case sealing technology.

IPak specializes in manufacturing machinery to form, stack and seal a full range of trays for all industries where trays are utilized. Our experienced team will work closely with you to recommend tray designs and the right machine to meet your corrugated tray application.

Pin & Dome  
US Patent No. 7,766,808 / 1,422,522

Wexxar Packaging is the leading manufacturer for end-of-line packaging machinery solutions. Along with our excellent partners at Technical Packaging Systems, we provide and maintain thousands of machines all across the country and can help you find the perfect solution for your facility.
